

GLOBAL STRENGTH AND LOCAL FOCUS

An introduction

Global strength and local focus

Every day, people around the world live, work and play on ground prepared by Keller.

We are the world's largest geotechnical solutions specialist. By connecting global resources and local knowledge, we tackle the toughest engineering challenges, managing risk in the ground in over 40 countries around the world.

We have the people, expertise, experience and financial stability to respond quickly, see the job through and get it done safely.

We often operate in the most challenging circumstances, where climate, terrain and culture are forces to be reckoned with.

Ultimately, our global strength comes from the connected companies of Keller, where local construction projects are built on a foundation of connected global experience.

Florida

Engineering solutions
for our customers.

What we do and where we operate

OVERVIEW

Used individually or in combination, our technologies solve a wide range of geotechnical challenges across the entire construction spectrum – from industrial, commercial and housing projects to infrastructure construction

for dams, tunnels, transportation and water treatment. We also meet the specialised geotechnical requirements that relate to renovating existing buildings and solving environmental challenges.

OUR PRODUCTS AND TECHNIQUES...

Ground improvement

Grouting

Heavy foundations

Earth retention

Post-tension system

Instrumentation and monitoring

ARE USED IN THESE APPLICATIONS...

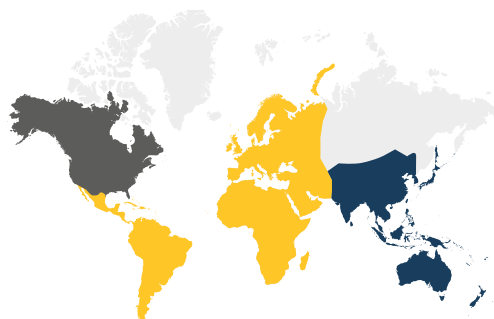

Heavy foundations, Ground improvement, Earth retention and shoring, Environmental, Marine, Foundation repair and underpinning, Instrumentation and monitoring.

...ACROSS THESE SECTORS

Infrastructure, Residential, Commercial, Industrial, Power, Public and institutional.

...ALL OVER THE WORLD

- ◆ North American Division
- ◆ EMEA Division
- ◆ APAC Division

THE BENEFITS OF OUR APPROACH

Local focus:

- In-depth knowledge via locally based staff
- Thorough understanding of local customs and protocols
- Local contacts for customers and suppliers
- Supports greater awareness of local terms and conditions

Global strength:

- Continuously improving established process enhances sharing of best practice across our regions
- Ability to draw on alternative solutions from other countries

How Keller's global reach benefits our customers

Expertise to get the job done

If you want faster and more effective results ask us to bring our global experience to solving your specific problem. We have probably solved a similar problem before.

Global product teams

To enhance our engineering and operational capabilities, we have ten global product teams (GPTs) covering each of our major product lines. They make a difference by contributing to bids, coming up with new design methods and transferring technology and resources.

From: London

To: Seattle

Using jet grout techniques with BIM from a tunnelling contract in London to repair a sea wall in Seattle, USA.

From: Denver

To: Christchurch

Mobilising resin jacking and grouting skills from Denver to lift buildings in Christchurch, New Zealand.

6,000

PROJECTS PER YEAR

40

COUNTRIES

From: Germany
To: Australia

Using drilling technology from Germany for a large mine filling project in Ipswich in Australia.

From: Poland
To: India

Diaphragm wall expertise from Poland to secure a major metro scheme in Lucknow.

From: Singapore
To: Ghana

Using deep vibration equipment from Singapore to tackle a ground improvement job in Sanzule in Ghana.

From: Cape Town
To: Rio

Taking equipment expertise from Cape Town to help drive steel piles in Rio de Janeiro, Brazil.

10,000

PEOPLE WORLDWIDE

Sustainable development goals

Keller supports the United Nations Sustainable Development Goals (SDGs). We have chosen to focus on those that are of most significance to our operations and report annually on our progress against each of these.

Good health and well being

'ThinkSafe' is our program to improve the health, safety and well-being of our people. 'ThinkSafe' has helped reduce accidents in our business by 40%.

Quality education

All three divisions have developed a number of bespoke training programmes for employees. We are constantly looking at how we can share best practices across all of our businesses.

Gender equality

We promote an environment where everyone at Keller has equal opportunities to achieve their full potential and diversity can flourish.

Decent work and economic growth

We believe in treating all employees with fairness, encouragement and respect. We support every individual's human rights and refuse the use of child labour and forced labour under any circumstances.

Climate change

We have already adopted the international carbon disclosure program (CPD).

Life on land

We have improved our processes for capturing and recording environmental incidents. This includes a number of poster campaigns amongst employees to increase hazards awareness and ways in which to reduce our impact on the environment.
